SUMMER PACK 2020

Name: _____

LEVEL 2

Dear Parents,

Summer break is here!!! It has been such a joy to watch your children grow and learn so much. We are very proud of all the progress each child has made. Your support and efforts at home have been a major reason for your child's successes every time. Each of you is to be commended for your efforts.

In order to make sure that your child keeps the "brain juices" flowing over the summer break, we have put together a packet that reviews great materials we have learned till now and an introduction of what we will learn in future. Completing the assigned pages each week would be very beneficial as it would help ensure retention of the materials learned. Moreover, completion of this packet will get us off on the right foot when your child returns to school.

Once again, thank you for all your support! We look forward to seeing all of your children's bright and shining faces soon. Enjoy the summer!

Regards,

Management

Be Creative, Be Kind, Be Happy, Be Safe & Be You!

INDOOR ACTIVITIES

1. Make card for your favorite person at home.

ART ASSIGNMENTS

1. Printing Baskets

For this activity, all you need are some baskets, paint, a dish or a plate for holding the paint and paper.

How To Do

- Fill the paint dishes with paints of the children's choice.
- Dip the baskets into the paint and then stamp them onto the paper
- Your children can stamp some designs onto card paper.

Date: _____

Day: _____

2. Circle Painting

Make an emphasis on recycling!

How To Do

- Use some items that can be used to make the imprint of a circle, such as soda bottles, straws, jars etc.
- Take a piece of paper, and allow your children to dip the circular bits into the paint to make circular imprints on the paper.

Date: _____

Day: _____

3. Finish the incomplete picture

Objective: To enhance the observing capability

To improve the drawing skills

Resources: pencil, eraser and colors

Draw a face, legs, spots and antennae on the caterpillar.

Date: _____

Day: _____

4. Apple Paint Trees

Objective: To learn about apples and their colors

To improve the painting skills

Resources: an apple, poster colors, white card sheet or paper and paint brush

Date: _____

Day: _____

5. Ice Finds

A fun game on a hot summer's day.

How To Do

1. You will need to freeze a lot of ice cubes, some with toys and some without toys.
2. The aim is for your children to find the toys inside by getting through the ice barrier.

Date: _____

Day: _____

SCIENCE ASSIGNMENTS

Balloon Rocket Science Experiment

<http://coolscienceexperimentshq.com/balloon-rocket/>

Supplies Needed

- Balloon
- Plastic Drinking Straw
- String
- Tape
- Two objects of the same height that you can tie a string to. I used chairs.

Instructions

Step 1 - Position two objects of the same height (I'm using chairs) about 10 feet apart and grab a piece of string.

Step 2 - Tie one end of the string to one of the objects. Make sure it is securely fashioned.

Step 3 - Next, get a straight plastic drinking straw. If the straw is one of the "bendy" straws with the flexible piece, cut off the flexible part so you are left with a straight straw.

Step 4 - Place two pieces of tape on the straw

Step 5 – Thread the string through the straw

Step 6 - Tie the loose end of string to the back of your second object (I'm using another chair) and make sure the string is tight. If the string isn't tight, move the objects farther apart until it is.

Step 7 - Blow up the balloon and hold the end so the air can't escape and use the two pieces of tape to secure the balloon to the straw.

Step 8 - Move the straw and balloon to one end of the string. And once you are ready.....

Step 9 - Let go of the balloon and watch as it rockets across the string! Then inflate the balloon again and repeat again and again.

Date: _____

Day: _____

Walking Water Science Experiment

<http://coolscienceexperimentshq.com/walking-water-science-experiment/>

Supplies Needed

- Two glasses of equal height
- Water
- Food Coloring (optional)
- Paper Towel

Instructions

Step 1 – Position your two empty glasses about 2 inches apart. Pour water into one of the glasses until it is halfway full

Step 2 – Add a few drops of food coloring into the water. *optional, but it will help you see the water “walking” more clearly

Step 3 – Stir the food coloring until the water is all one color.

Step 5 – Place one end of the paper towel into the glass with the water. Then place the other end into the glass that is empty. Then leave the glasses sit and come back to check on them in about an hour.

Step 6 – Return to the glasses and observe what has happened.

Date: _____

Day: _____

Balloon Blow-up Science Experiment

<http://coolscienceexperimentshq.com/balloon-blow-up-science-experiment/>

Supplies Needed

- Small Soda Bottle
- Balloon
- Baking Soda
- Vinegar
- Funnels
- Teaspoon

Instructions

Step 1 – Using a funnel, pour about a third of a cup of vinegar into the bottle.

Step 2 – Then insert another funnel into the mouth of the balloon.

Step 3 – Place two teaspoons of baking soda into the funnel so it falls into the balloon. Then remove the balloon from the funnel.

Step 4 – Next, secure the mouth of the balloon over the top of the bottle. Don't let any of the baking soda fall into the bottle...yet!

Step 5 – While holding the bottle, lift the end of the balloon allowing the baking soda to drop into the bottle

Step 6 – Watch in amazement as the balloon magically inflates
